**FROM HEAD TO FOOT**

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

*Dear Sir*—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

VALENTINE FRANK,
140 Goodrich Street. Buffalo, N. Y.

... FOR LADIES, TOO.

**They Can Stop Their Hair Falling Out With Herpicide.**

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEART S

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

**Kodol**

**Dyspepsia Cure**

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

D. KAUBLE, Nevada, O.

**Both Claim Victories.**

The sustained pressure of General Kasegawa's army across the Tumen river toward Russian territory is recognized in Russian government circles as Japan's immediate step to force Russia to make peace. Kasegawa's army is now only 50 versts (33 miles) from the frontier. Within 10 days it is fully expected 100,000 Japanese troops will be established in the villages of the Russian Ussuri region, which has never yet had an enemy within its boundaries.

It is realized by the general staff that General Kasegawa intends to keep General Kasbeck enclosed in Vladivostok. He will thereby prevent a force from coming thence to defend Ussuri. The natives of that territory cannot defend themselves, as the whole male native population already is in active service in the army. Thus General Kasegawa can over-run the whole territory from the Gulf of Peter the Great to the Amur river.

General Linevitch cannot prevent this, for his 400,000 men are confined by Marshall Oyama's 500,000, and any attempt on his part to relieve General Kasbeck could only result as did Marshal McMahon's attempt to relieve Metz, in 1870.

General Linevitch can retire from Harbin only to the Trans-Baikal region. Such a retreat and the surrender of Harbin to the Japanese would be equivalent to offering them the whole territory from Harbin to the Sea of Japan.

It is recognized that the whole strategic position of the Japanese will force General Linevitch to defend Harbin at any cost, and that he must accept a general engagement.

General Linevitch, telegraphing to Emperor Nicholas under date of July 3, reports the annihilation of a Japanese battalion.

Dispatches received in Tokio state that the Japanese worsted the Russians.

**The Russian Mutineers.**

dispatch from Bucharest, Roumania, says that before the Kniaz Potemkin sailed from Kustenji a delegation from the crew handed the prefect a proclamation addressed to the representatives of the powers in Roumania formally declaring war on all Russian vessels which refuse to join the mutineers. The proclamation says the Kniaz Potemkin will respect neutral territory and foreign shipping. The delegation requested that the proclamation be forwarded to the powers.

A dispatch received in Berlin from Odessa says the Kniaz Potemkin threatened to attack a village of German colonists on the coast near Odessa and requisitioned and took on board some cattle.

A dispatch to the London Standard from Odessa yesterday morning says that the rebel battleship Kniaz Potemkin is reported to have been sighted 25 miles off the port returning from Kustendji, Roumania. The authorities, evidently crediting the report, sent a torpedo boat an hour before the dispatch was filed to meet and, if possible, sink the rebel ship. The crew of the torpedo boat consists chiefly of officers disguised as seamen. They intend to approach the Kniaz Potemkin as friends and fellow-mutineers. A number of 10-inch guns have been emplaced in well-masked positions along the shore of the inner bay.

The St. Petersburg correspondent of the Paris Petit Journal says it is reported that the crews of two battleships at Reval, on the Baltic, have mutinied.

A dispatch from St. Petersburg says that the reason why the Georgi Pobledonosteff surrendered at Odessa was that she had gone aground under the guns of a fort and could not be moved.

**The Havoc at Odessa.**

The governmental story of the events at Odessa, as published in the Official Messenger of St. Petersburg, has been in great part already covered in the statements made in official quarters. After detailing the activity of the socialist revolutionary committee in stirring up the strikers and the arrival of the mutinous crew of the battleship Kniaz Potemkin at Odessa June 27, the account proceeds:

"The mutiny of the warship provided the revolutionary committee with a good opportunity to influence the masses. The committee visited the battleship and assured the mutineers that the garrison of Odessa had laid down its arms and that the whole Black sea squadron had joined hands with the crew of the Kniaz Potemkin. According to eyewitnesses, officers took an active part in the councils on board the battleship, especially two young cadets. The results of the anarchist intrigues among the workmen and mutinous sailors became immediately evident. The troops were unable to use their arms against the crowds of workmen in the vicinity of the harbor for fear of the possibility of an enfilading fire from the battleship. The harbor therefore was at the mercy of the mob, which pillaged warehouses and vessels, broached casks of wine and spirits and started a drunken orgie. With nightfall coming the fires started by the rioters soon attained terrible dimensions. Nearly everything in the harbor was destroyed, the mob refusing to allow the firemen to fight the flames. The railway freight sheds were pillaged and many rioters and looters were burned alive while intoxicated.

## Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the **bulk** coffee he sells you. How *can* he know, where it originally came from, how it was blended—**or with what**—or when roasted? If you buy your coffee loose by the pound, how *can* you expect purity and uniform quality?

**LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.**

**LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.**

In each package of LION COFFEE you get **one full pound** of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

**Found a Cure for Dyspepsia.**

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who was suffering quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.

**Quality vs. Quantity.**

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspesia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properities to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick.

**Furious Fighting.**

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won and by the use of Electric Bitters. In unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you, by E. S. Leadbeater & Sons, druggist, at 50c. a bottle. Try them today.

Alexandria Gazette AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, JULY 5, 1905.

THE FOURTH OF JULY of 1905 is now a back number. It was appropriately observed throughout the land and in sundry places with more sanity than heretofore. For many years it was strangely supposed that this national holiday could not be properly observed if all the noise possible were not made. Hence numbers, not animated by patriotism but by a strange craze, caused all the din possible, and had it been in their power they would have produced seismic disturbances or invoked a comet to strike the earth. The loading of blacksmith's anvils and the firing of old and dangerous cannon, generally loaded to the muzzle, rendered the proceedings a torture to a large percentage, to say nothing of the danger incidental to such senseless acts. In late years the toy cannon and the dynamite cracker had turned certain places into bedlams until it became necessary in nearly all States and communities to eliminate this Fourth of July feature, and in most places yesterday this disagreeable adjunct to the holiday was in a measure wanting, while the more innocent firecrackers were not forbidden nor were the use of harmless fire works at night. No one feels any the worse today for having followed the dictates of common sense and safety. In this city most of the explosions heard were from the old-time powdercrackers, as they were called, although at times some defiers of the law exploded the more dangerous devices or discharged guns or toy cannons. Of course, nobody expected the complete elimination of such procedures at once, but the fact that there was a noticeable diminution in them was apparent, and in time they may cease to be accompaniments of the Fourth of July. There is no disposition on the part of anybody to deprive the younger generation of their powdercrackers on the anniversary of the Declaration of Independence, but all should be averse to placing in their hands devices dangerous to themselves or others, and no good citizen will enter a protest against any prohibition for the public comfort or safety.

GOVERNOR MONTAGUE spoke to a large crowd at Accomac Courthouse Monday. The feature of interest was the Governor's answers to questions propounded by the Drummondtown Martin Club. Two of the questions were: Why he had refused to sign the bill placing the statue of Gen. R. E. Lee in Statuary Hall, and why did he continue in the employ of the Southern Railway when as District Attorney he was required to sue the railroad for violation of the interstate commerce laws.

To the first the Governor replied that he had had no legal right to repeal the law to place General Lee in Statuary Hall, but had taken the ground that General Lee's fame was greater than that of the hall or the city of Washington and the time would come when the nation would ask that his statue be placed there. To the last question he replied that the offices of United States District Attorney and of attorney for the Southern road did not conflict, as he could not sue the road unless ordered by the Commerce Commission or Attorney General. He was willing, he said, to compare records with the junior Senator along this line.

Such answers are not at all satisfactory; indeed they will be considered by many unworthy of a Governor of Virginia.

SOME REMARKS of the New York Tribune relative to the beef trust indictments are excellent, and are quite as applicable to the prosecution of the Atchison road. "The only way to stop violations of these laws is to punish the individual men who violate them." It recalls the adage that a corporation has no body to kick and no soul to save. "So long as the persons who do the work can hide behind a company name law-breaking will go on. If the Amalgamated Burglars' Trust could draw a herring across the trail of the individual cracksman, and assume corporate responsibility for his operations, housebreaking would become a safe and profitable industry. The Government is on safe ground when it assumes that for every broken law there is a personal law-breaker, who could and shall be held responsible for the crime." But the Government does not assume that when a member of the cabinet is involved.

MR. JOHN D. ROCKFELLER, if he lives a few years and continues the exercise of business prudence combined with the audacity which has characterized his past career, will write his fortune down $1,000,000,000, and will figure as the first billionaire the world has ever seen. Experts compute his wealth today at more than $600,000,000, and the capitalization of the enterprises controlled by him at more than $500,000,000. Financially Mr. Rockfeller is the world's greatest potentate. The Czar of Russia enjoys an annual income of about $12,000,000,000; Emperor William, as King of Prussia, receives a little less than $4,000,000; the Emperor of Austria-Hungary, $3,875,000; King Edward, $2,225,000, and the King of Spain, $2,000,000. Mr. Rockfeller, emperor of oil, king of steel, banking and railroads and prince of several dominions of less importance, can buy and sell them all.

IN PORTLAND, OREGON, at an early hour yesterday morning, Senator J. H. Mitchell, who has occupied a seat in the U. S. Senate for twenty-two years, was found guilty by a jury of having violated that law which precluded him as a United States Senator from accepting pay for practicing before the departments of the federal government. The penalty for the crime under which Mitchell is adjudged, is two years in prison and $10,000 fine. Soon after being indicted, it will be remembered, Mr. Mitchell, upon the floor of the Senate, made a most dramatic denial of his guilt. Last year a Nebraska Senator was indicted, but the indictment was quashed on the ground that the acts charged were committed before he became a Senator. A Kansas Senator was convicted of taking money from a corporation which was violating the law for his influence with the Postoffice Department, but he is to have a new trial. Now Senator Mitchell, of Oregon, is convicted of taking money for getting claims allowed by the General Land Office. And these men are members of "the highest law making body in the world!"

FIVE MORE absolute cures of tuberculosis have been announced by the Post Graduate Medical School of New York, as a result of experiments carried on in the hospital dispensary. This makes a total of forty-five cures since 1898. The treatment is grounded on the theory that consumption is a result of malnutrition, and that in a healthy body the consumption germs have no chance of existence. The treatment aims to build up the tissues by special diet faster than the disease can break them down. In this diet eggs, milk, cheese and fats are prominent, the fats being designed to supply the necessary heat and energy. Still, people are dying with consumption every day.

In commenting upon the recent police raid in that city the Philadelphia Record well says:

A good many hitherto reputable women are said to have been caught in the great raid of Saturday night, and there is some sympathy for them because they were treated as "inmates" of disreputable houses and held for trial, while the men they were with were discharged with a small fine. Of course, there is a lack of equity about this, but women who are found in disorderly houses in company with men who are not their husbands are not excessively respectable, and is is highly important that women whose connections are respectable should understand that going to places of evil repute is very dangerous.

IN THE most extraordinary exercise of the pardoning power known in years, President Roosevelt on Monday commuted the twelve-year penitentiary sentence of William M. Jacobs and William L. Kendig, of Lancaster, Pennsylvania, regarded as the most dangerous counterfeiters ever caught, to expire immediately. By this, virtual pardon has been granted to the men.

THE Petersburg Index-Appeal yesterday commemorated its fortieth anniversary by the publication of a special eighteen page edition designed to be illustrative of the industrial, commercial and professional character of Petersburg. The edition is worthy the Index Appeal.

## From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., July 5.

Official Washington paid its last respects to the late Secretary of State this morning at the Church of the Covenant of which Mr. Hay was a communicant. Members of the diplomatic corps and officers of the army and navy in full uniform, bureau chiefs, friends and admirers of the deceased joined in the memorial service. Impressive but simple grandeur marked the exercises and the mourning decorations. The polished oak of the pulpit pillar stood out in bold relief against a background of black. Across the communion table lay a silken flag half unfurled. On each side of the pulpit were huge pots of lilies of the valley, while between the chancel and the auditorium were tributes of orchids, palms, lilies of the valley and roses in profusion. The vast auditorium was filled and in the square about the ivy-covered stone edifice hundreds who had been unable to secure entrance, stood with bowed heads. The services were conducted by Rev. Dr. Fennis S. Hamlin, Mr. Hay's pastor, unassisted. An invocation, prayer, hymn, "For All Thy Saints Who From Their Labors Rest," and scriptural selections preceded the funeral address by the pastor. "Lead Kindly Light," by the quartette, funeral marches from Chopin and Guilmant on the organ and a benediction concluded the services.

The Comptroller of the Currency has appointed National Bank Examiner D. A. Cook receiver of the Spring Valley National Bank, of Spring Valley, Illinois, upon advice received from Etaminer Cook that the bank was closed. The Comptroller has also appointed National Bank Examiner J. MacSholl receiver of the First National Bank of Toluca, Illinois, upon advice from the vice-president of the bank that it would not be open for business this morning and a request that an examiner take charge. The supervision of these banks is due to the failure of C. J. Devlin, who was president of both of them, and whose indebtedness to the First National Bank of Topeka, Kansas, caused the suspension of that institution on Monday. The capital of the Spring Valley National Bank is $50,000 and of the First National Bank of Toluca $100,000.

The governmental inquiry that is being made into the recent installation into the government printing office of 73 Lanston typesetting machines has developed a stock speculation from which the Mergenthaler typesetting, people, upon whose complaint the investigation was started, expect sensational results. Testimony has been introduced to show that previous to the recent purchase Public Printer Palmer and other officials of the printing house, held frequent conferences with President Dove of the Lanston company, and that two employees who were in such a position as to learn the public printer's attitude, and the wives of the two other favored employees had recently purchased large blocks of Lanston stock.

On account of the funeral of the late Secretary Hay at Cleveland, Ohio, all the government departments in this city were closed today and most of the employees thereof were given holiday. Many people are out of the city and "nothing doing" is the reply that newspaper men receive on all hands.

### Premature Explosion of Shell.

By the premature explosion of a shell in the open breech of a five-inch gun while a Fourth of July salute was being fired at Castle William, on Governer's Island, New York harbor, yesterday, Private Cornelius Harrington, of Company H, Eighth Infantry, was so badly injured that he may not recover. One arm was torn off, his right eye was blinded, and he was terribly burned on the head and body. Sergt. Frank Webb, of the same company and regiment, was badly hurt, and it is feared will lose the sight of one of his eyes, but he is expected to recover.

Sixteen men were grouped about the battery of four siege guns while the salute was being fired, and at the moment when the explosion occurred, but only those nearest the gun were knocked down by the force of the explosion. The gun had been fired once, and, under the direction of Sergt. Webb, Harrington had placed a new shell in the breech of the gun and was about to close it when something ignited the blank cartridge. It is believed that a spark from the previous discharge set it off.

Harrington was thrown thirty feet from the gun. Sergt. Webb was out of the direct line of the explosion and escaped the full force.

Zeitlin, who was born in Lodz, Poland, where he accumulated a comfortable competence as a merchant, has been a resident of Brooklyn for eighteen years. He is still active, is able to read a great deal and is said to be the life of the home of Isaac Krinsky, with whom he lives.

The centenarian drinks and smokes freely, and believes that neither habit has a bad effect upon his health. He says he sees no reason why he should not live for another twenty-five years.

## Today's Telegraphic News

### The John Hay Obsequies.

Cleveland, O., July 5.—President Roosevelt's special train, with practically the entire United States government on board, made an uneventful rush through Pennsylvania and Ohio last night.

In silence and gloom of Wade Memorial Church in Lakeview cemetery the final prayers for the eternal rest of Secretary of State John Hay were begun at 11 o'clock today. The casket, resting in the sanctuary, was tinted by the light that fell from the great window on the east. The floral offerings took on different hues and the gray head of the officiating pastor, Dr. Hiram Hayden, pastor emeritus of the Old Stone Presbyterian Church, a friend of the late Secretary, bowed above the casket, was crowned by golden light. In the short rows of benches was gathered the company of distinguished mourners. They scarcely filled the chapel. Mrs. Hay and Clarence Hay were on the front bench to the right. To the left was President Roosevelt. Samuel Mather and other relatives were near Mrs. Hay. The remainder of the company sat well to the rear.

The silence was breathless as Dr. Hayden began his prayer for the dead. A quartette sang two verses of a hymn following which Dr. A. H. Meldrum, pastor of Old Stone Church, read a passage from the Scriptures. Another song, a prayer, and the services were over. No one stirred as the casket was lifted from the supports by a squad from Troop A, O. N. G., and born down the aisle. The crowd at the door parted and the body was placed in the waiting hearse. Behind it followed the said mourners and the members of the President's Cabinet who acted as honorary pallbearers.

Secretary Shaw and Attorney General Moody led the Cabinet, followed in order named by Postmaster General Cortelyou, Secretary of the Navy Bonaparte, Secretary of the Interior Hitchcock, Secretary of Agriculture Wilson and Secretary of Commerce and Labor Metcalf.

The President accompanied Mrs. Hay and Clarence Hay to their carriage. The grave was in the Stone plot, near the Rockfeller monolith. Troop A aligned itself in battalion formation in the rear of the lot. The active pall-bearers flanked the grave. Before it with bared heads, were the President and his party, to the rear of Mrs Hay and her son. The casket was lowered into the grave immediately. A handfull of earth was cast upon it, the familiar graveside prayer was uttered by Dr. Hayden, and the remains of the Secretary of State were covered from mortal sight.

A large crowd had gathered in the cemetery to watch the final services over the distinguished dead.

The party at once entered carriages and was driven away. The President and the members of the Cabinet, with visiting associates of the late secretary, were taken to the train. Mrs. Hay returned to the home of Samuel Mather.

Flags are at half staff on all buildings throughout the city. Mrs. Hay wished all the ceremonies to be as simple and unostentatious as possible. Only the President and his party and the citizens' committee were in line. The arrangements for the funeral were perfect and carried out well.

Eki Kioki, first secretary of the Japanese legation, at Washington, is the only representative of the diplomotic corps to attend the funeral. Hioki formally presented two wreaths, one on behalf of the Japanese government, and another on behalf of Minister Takahira. Wreaths received from President and Mrs. Roosevelt, and King Edward of England, were laid at the head of the casket. Another from Sir Mortimer and Lady Durand, the British Ambassador and wife, was placed at the foot of casket.

Other wreaths were received from President Roosevelt's cabinet, and the diplomatic corps, at Washington.

At the Chamber of Commerce when the President and party arrived the President and associates, I looked upon the casket. The President did not look upon the remains. "I prefer to remember him as I saw him last," he said in somewhat a trembling voice to those near him. The President stood with eyes fixed upon the casket some time. His face bore traces of genuine sorrow.

### French Autoist Won.

Laschamps, France, July 5.—The Gordon Bennett race was run today in the Auvergne mountains, the start being made from this pretty little village, which is about 200 miles from Paris. The course was the most perilous ever elected for the cup, so that not only extreme difficulties faced the competitors, but no unusually great speed was possible. On the other hand, however, every possible opportunity was afforded for skill, rendering the results of the race significant since more depended upon the driver of each car, rather than upon the simple force of the machines.

Laschamps, France, July 5.—M. Theery, the French autoist, in a Richard Brazier machine, won the Gordon Bennett cup.

It is estimated that nearly 200,000 people witnessed the race, and a veritable army of automobiles was drawn up behind the stands at Laschamps.

There was but one accident. The French eliminator Farman met with the mishap which fortunately left him and his mechanician uninjured in a tree, but dashed their automobile to pieces in the ravine.

### Lawson to Speak.

Roston, July 5.—At 11:30 this morning Mr. Thomas W. Lawson left the North station with a special car bound to Montreal and Kansas to make a series of speeches against the "System." "I'm going to talk in the country on the system and finances in general," said Mr. Lawson. "I want to educate the people and I think I can do it by talking facts as I have written facts. I may tell them about that gas business in Philadelphia."

Lawson will reach Montreal tonight. He will arrive in Kansas City on July 9, and speak before the Knife and Fork Club. On the following morning, he will leave for Ottawa, Kansas, to speak there in the afternoon. He will make other speeches in the West and return to Boston on July 18.

### Astor Family Feud.

New York, July 5.—Through the action of King Edward VII, as peacemaker a feud of twenty years' standing between the Astor families has come to an end. The cause of it was the struggle as to who was to lead the "400."

Thus is healed, according to word from London, a most bitter quarrel, which caused the expatriation of William Waldorf Astor in 1890. It was a more famous controversy than even that in the Mrs. Cornelius Vanderbilt family.

William Waldorf Astor's eldest son and namesake, who created a stir a few years ago by his marked attention to an Austrian princess, has also dined with Mrs. "Jack" Astor at the house in Portland place, which she rented for the season from Lady Edmonstone.

The climax to the quarrel came in 1890 when William Waldorf Astor transferred his allegiance to the British Crown and made England his permanent home. Two years after he had settled in England his wife died. It was said then that peace might come; but it was a false hope.

Colonel John Jacob Astor, who is now on the ocean on his way to England, has it is declared, taken with him to William Waldorf an olive branch from his aunt and an invitation to visit her here.

Mrs. John Jacob Astor was Miss Willing, of Philadelphia.

### A Bomb-thrower.

St. Petersburg, July 5.—Cossacks fired upon a gathering of strikers here today. The attack occurred near the Putiloff factory. A striker was arrested on suspicion that he was a dynamiter, and this started the trouble. The prisoner drew a revolver and killed the policeman. The strikers congregated and became threatening, refusing to disperse when called upon to do so. At first, the Cossacks fired over the heads of the mob, but as that did not have the desired effect, they, shot into the crowd. There were a number of casualties. The strikers then dispersed on the run, but all day they continued to collect in groups and many threats are heard. Further trouble is feared.

### Mafia Plot to Brand Priest.

Scranton, Pa., July 5.—The hearing given to Sam Rita, the member of the Mafia arrested in a cave, took place in Carbondale yesterday and revealed a startling condition of affairs among the remnants of the Mafia here.

It appears it was not the intention of the Mafia to murder Father Cerruti, the Italian priest at Carbondale, but to brand him, and the meeting in the cave was for the purpose of instructing the men selected for the purpose.

Branding was to consist of slashing the victim on each cheek with a razor so as to mark him for all time as an enemy of the society. Detectives secreted outside of the cave heard all the details of the plot.

The men who were deputized to do the slashing were furnished with wooden razors and instructed how to do the work by making use of a dummy victim.

It was developed at the hearing that Rita was the chief of the gang and he was committed without bail.

### Arrivals from the Isthmus.

New York, July 5.—The Panama Railroad Company's steamer Advance arrived today from Colon, with 600 passengers on board. A number of canal employes and families were among these. The Advance brought the body of Samuel Y. Hirsch, who died at Panama, of yellow fever. Hirsch was secretary to Governor Magoon of the Canal Zone. He was engaged to be married to Miss Gladys Brandon, daughter of a prominent Panama merchant. The Advance was held at Quarantine for inspection and disinfection. As a result of the test of the thermometer, George Baylor, aged 42, a passenger, was removed to Hoffman Island, for observation. Baylor was employed on one of the canal commissioners boats as engineer. His home is at Standard, N. J. There were also removed to Hoffman Island Edward P. Henick, aged 22, laborer, and Frank Namac, aged 22 years, a boiler maker. The former is from Texas, and the latter's home is in this city.

### Flirting Musicians Pay for Fun.

Atlantic City, July 5.—Five dollars apiece was the penalty imposed by Recorder Babcock in the case of Alfred Cernire and Peter Rosanni, two handsome members of the Italian Band, who were arrested for flirting. The brilliant uniforms of the musicians appeared to be a source of admiration to the fair sex, and the manager of the pier where the band is playing was compelled to insert a clause in the contract with the band making flirting a misdemeanor and several of the musicians were discharged from the band on account of the practice.

### Revolt on Merchant Steamers.

Vienna, July 5.—A telegram from Kustendji, Roumania, states that the Roumanian steamer Din King Carl, which has just arrived, reports that all Russian merchant steamers from Alexandria to Constantinople are arriving with their crews in mutiny. The Russian torpedo boat Strenitely has left for the southward. Two iron clads, awaiting the torpedo boat orders, are lying twenty miles off shore. They are awaiting the appearance of the Kniaz Potemkin.

### Strike Spreading.

St. Petersburg, July 5.—The strike is slowly spreading but has not as yet become general. A meeting of the strikers of the Putiloff Works was held this morning at which demands were formulated upon Father John's programme for transmission to the managers of the works. A strong cavalry force is guarding the Putiloff plant and Cossacs are patrolling the city. The workers at the Laforme tobacco factory joined in the strike today.

### Christian Endeavorers.

Baltimore, July 5.—From every public building in Baltimore, except the saloons, flies a "welcome" to the host of Christian Endeavor delegates who are coming in for the national convention, which begins this afternoon at 3 o'clock. By this evening there will be at least 18,000 here. At 7:40 this morning the first train load arrived and thereafter the stream came in steadily with trains at both Union and Mount Royal stations from ten minutes to half an hour apart. The biggest delegation, aside from Maryland, in all liklihood, will be Pennsylvania, with 3,000 delegates. This may be over-topped by either New York or Washington, both of which promise an attendance near that number. The reception committee waited at the armory until 11 o'clock last night for the Ohio delegation, 1,000 strong, but they did not arrive until this morning. Seven cities are making a hard fight for the next convention in 1906. Delicate politics is being played, but it remains to Los Angeles, California, to cap the climax. They have brought with them dozens and dozens of boxes of the luscious California oranges and intend to make them all into orangeade to help boost their claim along. The other cities making the fight are Seattle, Washington, Chicago, Minneapolis, Indianapolis, Des Moines, and Kansas City. President Francis E. Clarke is sick and unable to come. Officers elected today at business meeting of trustees: President, Francis E. Clarke; Treasurer, William Shaw; Auditor, F. H. Kidder; Clerk, George E. Graff.

### The Kniaz Potemkin.

Galatz, Roumania, July 5.—An Italian steamer which has arrived here reports seeing the Kniaz Potemkin, the Russian battleship in the hands of mutineers, going in the direction of Batoum.

St. Petersburg, July 5.—A telegram from Theodosia, Crimea, states that the Kniaz Potemkin has arrived there and that coal and provisions have been demanded. A doctor has also been asked for. The mutineers demanded that the municipality guarantee their safety during their stay. A reserve officer named Alexieff, who was formerly captain of a merchant steamer, is navigating the Potemkin.

London, July 5.—The Constantinople correspondent of the Star telegraphs that the commander of the forts at the entrance of the Bosphorus had been ordered to fire on the Kniaz Potemkin if she tries to pass through the Dardanelles.

London, July 5.—A dispatch to the Central News from Odessa says that the squadron from Sevastopol arrived there this morning to take charge of the battleship Georgei Pobiedonosets, on which there had been a mutiny.

Sevastopol, July 5.—Admiral Kruger's squadron has returned here with the battleship Georgei Pobedonesets whose crew recently mutined, but later surrendered.

### New York Stock Market.

New York, July 5.—There was some irregularity to price movements in early dealings this morning. Apparently due to the lower prices in London causing some selling by traders here was for a time the effect by the purchases by the commission houses. In a short while, though, the market felt the big orders, prices moved up sharply on heavy buying, and nearly everything on the list made gains in the first hour ranging from ¼ to 1¼ points. There is a little better supply of stock all around the room, mostly from speculative interests that were heavy buyers last week

### The Fourth of July.

Yesterday was a comparatively quiet Fourth of July, and although the temperature was high most people enjoyed the holiday in one way or another. Numbers had formed private excursion parties, some going in small boats a short distance down the river and taking up their abode near springs or in secluded dells where they whiled away the day far from the madding crowd and the heat of the city. Others made similar trips in vehicles. The excursion boats and steam and electric trains transported many people toward every point of the compass. A large percentage of, however, provided seasonable refreshments and remained at home in neglige, preferring their own surroundings to those of crowded excursion steamers and trains on a hot day.

While there were many explosions of firecrackers throughout the day, there was a marked diminution of ear-splitting reports from toy cannon and cannon-crackers. Occasionally some genius of the Steerfurth type defied the laws of the state of Virginia, the city ordinance and the Mayor's admonition and discharged one or the other of those torturing devices. At night about the usual quantity of fireworks, including balloons, was in evidence.

There were some minor accidents during the day, but, so far as known, no serious cases occurred. Mr. F. L. Entwisle was struck on the face from the ball of fire from a roman candle fired on south Fairfax street, and a little son of Mr. Andrew Underwood was burned on the face by the premature explosion of firecrackers. Others had their hands burned from similar causes.

There was an explosion of a quantity of fireworks and crackers in front of the residence of Mr. R. E. Knight, on south Fairfax street, last night. Fortunately no one of the crowd of little boys and girls collected on the pavement at the time was hurt, but had not Mr. F. L. Entwisle hastened to the scene with an extinguisher the house might have been seriously damaged by fire. The lower portion of the house was burning when the extinguisher was brought to bear upon it. The explosion was caused by a roman candle being discharged among the fireworks which were being sold from a table in front of the house.

The day was observed as a general holiday, the federal and city offices being closed, as well as most of the places of business in the city.

### The New Ferry.

The ferry slip constructed in Washington for the Norfolk and Washington Steamboat Company is now practically completed. Mr. John Callahan, who will manage the new line, has a force of men at work at the slip in this city making the preliminary preparations for the improvements which are to be made in the terminal at this end. As has been stated in the Gazette, the ferry house now standing will be removed within the next day or two from its present location thirty-nine feet to the north, and the slip will be so built that it will face directly on King street, and thus teams going off the boat will drive directly out upon King street. The new ferry house at the Washington end is a handsome building, and the new pier is the finest on the river front. Mr. Callahan will go to New York within the next day or two, and while there will endeavor to secure a double-end ferry steamer for service between Alexandria and Washington while the two new boats are being built.

It is said that the new company still desires to secure the wharf property on the south of the new slip, but the parties now controlling the same offer to dispose of it for $8,500, a sum the company refuses to pay, regarding it as excessive. It is also said that an attempt has been made to secure an option on the old Lannon wharf property adjoining that of the ferry company on the north. The ferry company, under these conditions, will only utilize the property formerly owned by the old organization.

### Juvenile Thieves.

Three small boys, Benjamin Allen, Malvin Mayhugh and George Massey, were arrested Saturday night by Policemen Knight, Arrington and Henderson, who were detailed by Lieut. Smith for the purpose, charged with housebreaking and larceny. Massey, it is charged, used cannon firecrackers for the purpose of blowing open chewing-gum machines, from which he extracted the gum and the pennies found therein. Mayhugh and Allen are also accused of robbing penny-in-the-slot machines, and are further charged with having stolen door mats and with having entered the residences of a number of people who are out of the city at present and stolen sundry articles. Among the houses entered was that of Judge L. C. Barley, where two small savings banks were taken. The boys confessed to Lieut. Smith and Officer Henderson, and the latter with Officer Gill recovered most of the stolen property. It is also said that Allen has confessed to having broken into a freight car, from which he stole some plug tobacco and a small quantity of snuff. The boys were brought before the Police Court yesterday and their trial postponed until 5 o'clock this evening. The authorities are considering the expediency of sending the three youths to the reform school.

### Baby Drowned.

The steamer Pocahontas left Colonial Beach late yesterday evening with a large crowd of Alexandrians and Washingtons. A short distance this side of the beach a Washington lady discovered that her two-year-old baby was missing, and a diligent search was made for the little one from one end of the steamer to the other without success. The disappearance of the child could be explained upon one theory only—it had fallen overboard. The distress of the mother was natually great, and it was impossible to comfort her. The terrible realization of the fact that she was destined to return home without her child nearly drove the mother frantic. The hilarily incidental to an excursion party was considerably dampened, as other parents gathered their children and kept them at their apron strings during the trip up the river. The lost baby was in charge of an older girl, and it is supposed that during a laxity in her watchfulness the little one mounted a stool and unobserved lost its balance and fell into the river. The name of the mother of the child could not be learned.

### Attempt to Escape.

Three men, whose names are said to be Ike Wales, Louis Flinn and Louis Red, were taken from the jail at Fairfax to the Alexandria county jail, on Fort Myer Heights, by Sheriff Allison, of Fairfax county, Monday morning, for safe-keeping. Their removal was due to the discovery that they had sawed through the steel bars of the cage in the Fairfax jail and were within a few minutes of regaining their liberty when the jailer became aware of their plot. The men had been in jail several weeks, pending trial for the robbery of freight cars near this city.

### Struck by a Train.

Past Commander Graham gave an interesting account of the recent meeting of the Grand Camp, at Louisville, Ky., which he attended.

### Fatally Injured.

One of the Italian hands employed on the railroad work just west of this city met with an accident today which will, in all probability, prove fatal. The unfortunate man was riding upon a dinkey train when he fell on the track and several of the cars loaded with earth passed over his body. He was taken to the Alexandria Hospital where he received all possible attention, but his injuries are of such a nature that he can hardly recover.

### Terminus at Quantico.

Henry G. Davis has just completed his new road, the Coal and Coke, from Charleston to Elkins, W. Va. He has now acquired the charter rights of the Burnsville and Eastern, and is going to build from Parkersburg to Burnsville, and thence to Elkins. He and the syndicate he represents have acquired over 400,000 acres of coal lands in that section and propose to develop it. As soon as this work is completed it is said that Mr. Davis will then proceed to carry out his pet project of building from Elkins east, striking deep water at Quantico or Gloucester Point. It is said that Quantico is fifty miles nearer to Elkins than any other point on deep water. Statistics show that it costs 7-10 of a cent a mile per ton to move freight. Computed on this basis there would be a saving of over $250 on every train carrying 750 tons of freight if the road were built to Quantico instead of any other point.

### Cotton.

New Orleans, July 5.—The sensational surprise in the cotton market today was the selling by W. H. Brown, the bull leader, of many thousand of bales of July or spot cotton, some fourteen points below the board quotations. This selling began just after the weekly weather bureau report was read which was extremely bullish, and put prices up some 15 points. Brown says that while he is a bull he takes this mode of saying emphatically that prices are going up too rapidly and faster than any judgment could wish.

### Separation of Church and State.

The bill for the separation of church and State passed the French Chamber of Deputies late Monday night by the decisive vote of 341 to 233. The result was greeted by governmental cheering and opposition hisses, and there was intense excitement. The discussion of the bill has lasted for months, and the legislation against the religious orders in educational matters has resulted in driving many of these institutions from France.

Mayor Weaver, of Philadelphia interviewed this morning regarding the offer alleged to have been made him by the republican organization, that he assumes the party leadership, emphatically denied that any such offer had been made him, and declared he would not accept it if it were. He further declared that as long as he remained Mayor, he would recognize no one man as the leader and spokesman of the republican party in this city or State. "The day of one man power is gone," he said.

A St. Petersburg newspaper today reports that a war deapartment officials who toured the supply departments in the far East has discovered grave abuses. At Tchave he found the flour rotten and at other places he found that bad food was causing dysentery among the troops.

### Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I than God for so valuable a medicine." For sale by Gibson & Timberman and W. F. Creighton & Co.

### A Whale's Spouting.

The whale does not discharge water, but only its breath. This, however, in rushing up into the air hot from the animal's body has the moisture condensed to form a sort of rain, and the colder the air, just as in the case of our own breath, the more marked the result. When the spout is made with the blowhole clear above the surface of the water it appears like a sudden jet of steam from a boiler. When effected, as it sometimes is, before the blowhole reaches the surface, a low fountain as from a street fire plug is formed, and when the hole is close to the surface at the moment a little water is sent up with the tall jet of steam. The cloud blown up does not disappear at once, but hangs a little while and is often seen to drift a short distance with the wind.

### The Game of Checkers.

The game of checkers, whether we call it checkers or draughts, is ancient and almost universal. The Chinese have a form of it which they call "the game of circumvention." It was known to the Egyptians, the Greeks and the Romans, and, what is stranger still, antiquarians find it to be one of the amusements of the aborigines of New Zealand, a people who were apparently cut off from all continental associations and influences for thousands of years. So the pedigree of the game is as long as that of chess, and indeed there have been skillful players of both games who regarded checkers as the better of the two.—Youth's Companion.

### Christmas In Constantinople.

In Constantinople three Christmas celebrations, two New Year's days and two other holy days follow each other in quick succession. As the "old style" calendar brings Dec. 25 two weeks after the same day "new style," two Christmases, the first Latin and the second Greek, are inevitable. And as stormy weather kept a delegation of Armenians from attending an ecumenical council at Chalcedon in 451, at which council the date of Christmas was changed from Jan. 6 to Dec. 25, the Armenians have ever since kept their old day.

### A Genial Smile.

Above all things smile! Smile though you cannot see any cause for smiling. Smile though a burden of sorrow seems crushing you to the earth. Smile though grief tugs at your heartstrings. If your days are gray and your tasks humdrum, smile. Smile until you awaken that joy center which lives at the core of you. And after you have once awakened it keep on stimulating it daily with your persistent practice of joy.

### His Preference.

"It is a positive delight to meet a man you feel you can trust," remarked the individual with the high forehead.

"Oh, I don't know. I prefer a man who pays cash," replied the man who kept the grocery store.

### A Rare Name.

"What is the rarest name I ever saw on a hotel register?" said a veteran clerk, repeating a query put to him, "Amelia Turnipseed, and that was years ago in Boston."—New York Tribune.

### Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. S. Leadbeater & Sons, druggists; price 50c and $1.00 guaranteed. Trial bottle free.

### Sprained Ankle, Stiff Neck, Lame Shoulder.

These are three common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any of these ailments. For sale by Gibson & Timberman and W. F. Creighton & Co.

### FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

### The Children's Favorite.

For Coughs, Croup, Whooping Cough, etc., One Minute Cough Cure Cure is the children's favorite. This is because it contains no opiate is perfectly harmless, tastes good and cures. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick street.

## ITS MERIT IS PROVED
### RECORD OF A GREAT MEDICINE

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham:—

"About nine months ago I was a great sufferer with womb trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid uterine tonic. It makes the monthly periods regular and without pain; and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."—Mrs. Sara Wilson, 31 East 3d Street, Cincinnati, Ohio.

If you have suppressed or painful menstruation, weakness of the stomach, indigestion, bloating, leucorrhœa, flooding, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, some derangement of the uterus or ovarian trouble. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.
